Am D7 G C Am D7
How can I tell you that I love you, love you

G Em
But I can't find the right words to say
I want to tell you that I'm always thinking of you, only thinking of you
But the words just fade away, they fade away

Am D7
It always comes to one thing
G Em
And I can't find the right words to say.

Everywhere I'm going to
I am always walking with you, only walking with you
And I look and find you there
And whoever I am talking to
I am always talking with you, only talking with you
And I'm glad that you can hear
It always comes to one thing
And I look and find you there.

I need to know you, need to feel my mind surround you
Feel my mind surround you
Like the sea surrounds the shore.
Every night and day I pray
In the hope that all might find you, hope that all might find you
G Em G Em
Those who long for more, those who seek for more
It always comes to one thing
And I kneel upon the floor

I'm neither body nor mind. Eternal self I am

And every move I make, is not a step of mine
And every step I take is just His dance of time

Every song I sing is through His lips so sweet
And every flower I bring His perfect love complete

All the love we feel is just the love He gives
The only life that's real is just the life He lives

So feel Him in your heart as I feel Him in mine
And we will never part from this sweet dance divine
